Dear Sir

### **BROQUET FUEL CATALST**

Please refer to your email dated 10 October 01.

2 We would like to inform you that the Land Transport Authority does not engage in the type-approval of motor vehicle accessories. However, for vehicle safety, we have always advised the public to check with us to ensure that the installation of such accessories complies with our vehicle safety requirements.

3 As the Broquet Fuel Catalyst is an add-on unit to improve fuel consumption and reduce exhaust gas emission of motor vehicles, we have no objection to its installation in motor vehicles so long as such installations do not interfere with the original air, fuel and exhaust systems of the vehicle. In other words, should the Broquet Fuel Catalyst fail, the vehicle must still operate as per normal.

4 It will be your responsibility to ensure that the Broquet Fuel Catalyst is installed according to the manufacturer's installation instructions.

5 This letter shall not be deemed as an endorsement of the Broquet Fuel Catalyst by the Land Transport Authority.

Yours sincerely

ENG YOU LENG
